This serves as notice of our intent to maintain all medical-dental records and information in the strictest of confidence.

HOW WE MAY USE AND DISCLOSE YOUR PHI

We understand the importance of privacy and are committed to maintaining the confidentiality of your medical-dental information. Dentists make a record of the care they provide and may receive your medical-dental information from others. These records and information are used to provide care or to assist others who are caring for you, and to obtain payment for services provided to you. This medical-dental information is also used to enable us to meet our professional and legal obligations in conducting our dental practice.

For Treatment. We will use PHI to provide, coordinate or manage health care and any related services. This includes communication with other dentists, physicians, office staff, or providers of services (specialists, laboratories, facilities, pharmacies, etc.) who provide care or services requested by your physician. For example, your doctor or nurse or social worker may provide medical-dental information to your other doctors or health care providers to coordinate your care. We may also disclose medical-dental information to members of your family or others assisting in your care.

For Payment. We will use PHI to obtain payment for the services we provide, either when payment is made directly by your health plan, or when assisting you or your other health care providers to obtain reimbursement. This may include pre-treatment reviews or authorizations, determination of eligibility and coverage, reviewing services provided to you for medical-dental necessity, and undertaking utilization reviews activities. For example, we may contact your insurance company before an office or home visit, or surgery, or testing, to determine the need to pre-certification or to determine whether your plan will cover the services.

Health Care Operations. We will share your PHI as necessary for medical-dental reviews, legal services and audits, compliance programs, and business planning and management. Medical-dental information may be shared with other health care providers or health plans when necessary to their quality assessment and improvement activities, including efforts to improve health or reduce health care costs.

We may disclose your health information to appropriate authorities if we reasonably believe that you are a possible victim of abuse, neglect, or domestic violence or the possible victim of other crimes. We may disclose your health information to the extent necessary to avert a serious threat to your health or safety or the health or safety of others.

Sign In Sheet and Announcement. Upon arriving at our office, we may use and disclose medical information about you by asking that you sign an intake sheet or computer check in at our front desk. We may also announce your name when we are ready to see you.

Appointment Reminders. If appointments are made directly with your anesthesiologist, we may use and disclose medical-dental information to contact to remind you about your appointment, and we may leave this information on your answering machine or in a message left with the person answering the phone.

Business Associates. We will share your PHI with third party ‘business associates’ who perform various activities (e.g., billing, transcription) for us. Whenever an arrangement with a business associate involves the use or disclosure of PHI, we will have a written contract that contains terms that will protect the privacy of this PHI.

Others Involved in Your Healthcare. Unless you request otherwise, we may disclose, to a member of your family, relative, or close friend or any other person you identify, PHI that directly relates to that person’s involvement in the patient’s health care. If you are unable to agree or object to such a disclosure, we may disclose such information as necessary if we determine that is in the patient’s best interest based on our professional judgment. We may disclose the patient’s location, and general condition to notify or assist in notifying a family member, personal representative, or any other person that is responsible for the patient.

Unsecured Email. We will not send you unsecured emails pertaining to your health information without your prior authorization. If you do authorize communications via unsecured email, you have the right to revoke the authorization at any time.

Communication Barriers: We may use and disclose your PHI if we or your physician or another physician attempts to obtain consent from you but is unable to do so due to substantial communication barriers and the physician determines, using professional judgment, that you intend to consent to use or disclose under the circumstances.

Emergencies. Your consent is not required before using or disclosing PHI in an emergency treatment situation. We will attempt to obtain consent, but will proceed with treatment and use and disclosure of PHI as needed. If this happens, we will try to obtain your consent or objection as soon as reasonably possible.

For example, your name and address may be used to send you a newsletter about a product or service that may be beneficial to you. If you are currently an enrollee of a dental plan, we may receive payment for communications to you in relation to our provision, coordination, or management of your dental care, including our coordination or management of your health care with a third party, our consultation with other health care providers relating to your care, or if we refer you for health care. We will not otherwise use or disclose your health information for marketing purposes without your written authorization. We will disclose whether we receive payments for marketing activity you have authorized.

Your revocation will be effective when we receive it, but it will not apply to any uses and disclosures that occurred before that time. If you do revoke your Consent, we will not be permitted to use or disclose information for purposes of treatment, payment or healthcare operations, and we may therefore choose to discontinue providing you with health care treatment and services.
